

Richtlijnen voor leveranciers

Deelname aan RFI's & RFP's op het SAP Ariba-platform

Inhoudsopgave

Inleiding

SAP Ariba Sourcing helpt inkopers bij het *opzetten* en *organiseren van gebeurtenissen* waarin zij *bedrijfsinformatie uitwisselen* met bedrijven zoals het uwe. Naargelang het type informatie dat inkopers willen verzamelen, maken ze met SAP Ariba Sourcing verschillende types gebeurtenissen aan.

RFI (Request for information of informatieaanvraag)

Gewoonlijk gaat een informatieaanvraag (RFI) vooraf aan een offerteaanvraag (RFP) of veiling. Via RFI's kan Umicore ook informatie of opmerkingen van leveranciers verzamelen waarmee het deelnemers kan kwalificeren voor een opvolgingsgebeurtenis.

RFP (Request for proposal of offerteaanvraag)

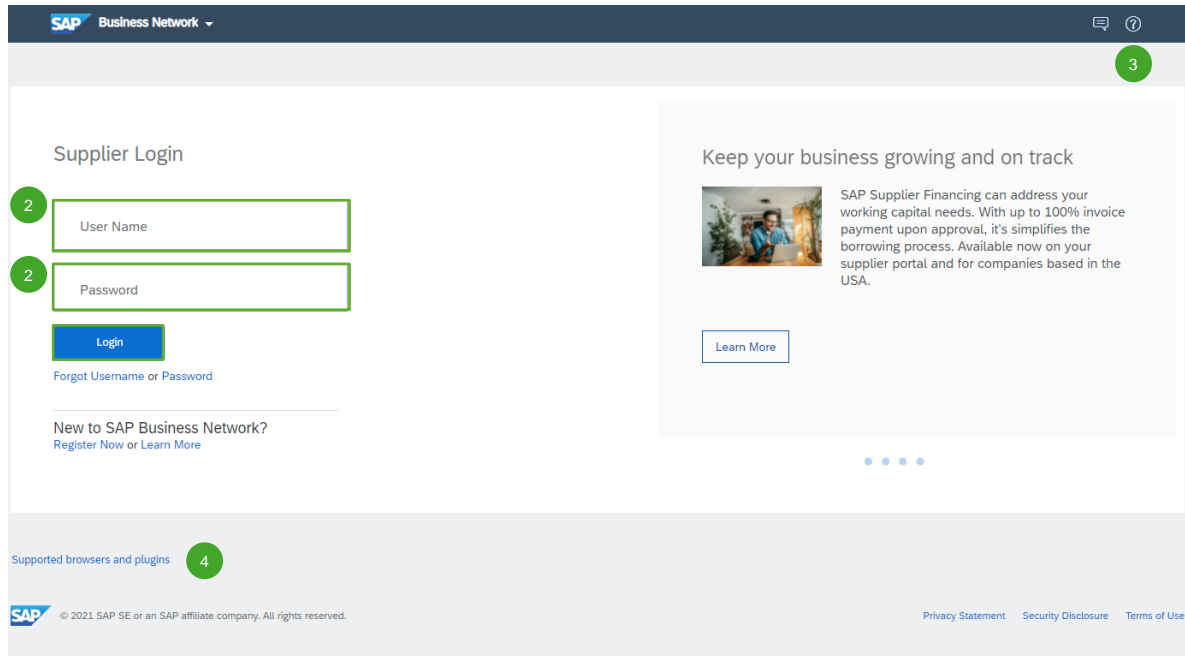

De offerteaanvraag (RFP) is een belangrijke stap in ons sourcingproces. Umicore geeft meestal uitleg over haar bedrijfsbehoeften en vraagt hoe u haar hierbij kunt helpen. Umicore wil meer weten over uw aanbod van goederen en/of diensten, uw productiecapaciteit en uw prijzen. Umicore kan die informatie benutten om een veiling te organiseren, te bepalen op welke partijen ze u moet uitnodigen en op een intelligente wijze maximumprijzen in te stellen. Meestal hebt u een week om te reageren op een RFP.

Kosteloos

Leveranciers *nemen geheel kosteloos deel aan de RFI- of RFP-*gebeurtenissen die Umicore lanceert via het SAP Ariba-platform.
